

### APEC – A Smart Port, connecting Smart People

APEC has been organising port training courses since 1977, transferring knowledge from one port professional to another. More than 16.000 people from all over the world have joined in on one of the seminars over the past four decades, gaining from the APEC repertoire of knowledge and skills, provided by both the private and public maritime sector in Flanders.

The various programmes offer not only the expertise that is present in Antwerp and Flanders; they provide a platform of discussion between participants, building a unique bond of friendship amongst them. APEC brings together port professionals and experts from all corners of the world to share and learn best practices, in order to enrich their own professional career.

Since 2020, APEC has embraced the digital format, resulting in various learning journeys.

Discover the full calendar of 2021 and get in touch with us for a personalised offer.
