

A SMART PORT
CONNECTING SMART PEOPLE

APEC organises port training courses since 1977, transferring knowledge from one port professional to another. More than 19.000 port professionals from all over the world joined in one of the courses over the past forty-five years. APEC has an array of knowledge and skills, presented by Port of Antwerp-Bruges, the private and public maritime sector in Flanders.

The broad spectrum of courses offer direct contact with experts in the wider Antwerp region. The sessions serve as a platform connecting participants, forging a lifelong bond.

APEC gathers port professionals from around the globe and shares best practices empowering each and every participant in further developing their personal career.

APEC embraces the digital format, offering port professionals various learning journeys. Participants have multiple options to choose from for a complete and in-depth experience.

LIVE COURSE IN ANTWERP

- Full-time programme in Antwerp
